PATENTS & TM

**WE SERVE U FOR YOUR PROFILE
IMPROVEMENTS**

100+ TOPICS AND TITLE READY TO FILE

IMPORTANCE

Reasons

- 1.The patent system, like other important innovation policy tools, merits periodic examination to help ensure the vitality of the national innovation system.
- 2.Significant changes in the patent system during the 1980s and 1990s, generally in the direction of extending and strengthening patenting, should be evaluated.
- 3.The use of the patent system for inventions related to research tools and discoveries has prompted a debate about whether such patents provide incentives to innovate or may in some circumstances impede research progress.

4. Patents are being more actively acquired and vigorously enforced.

5. The roles and benefits of patents vary greatly from one technology or industry to another, but there has been very little systematic investigation of the differences.

6.In the meantime the financial and opportunity costs of acquiring, defending, and challenging patents are increasing.

A Patent System for the 21st Century(2004)

WE DO ALL FOR YOUR PROFILE UPDATION

PATENTS RULES

Under the provisions of section 159 of the Patents Act, 1970 the Central Government is empowered to make rules for implementing the Act and regulating patent administration. Accordingly, the Patents Rules, 1972 were notified and brought into force w.e.f. 20.4.1972. These Rules were amended from time to time till 20 May 2003 when new Patents Rules, 2003 were brought into force by replacing the 1972 rules. These rules were further amended by the Patents (Amendment) Rules, 2005 and the Patents (Amendment) Rules, 2006. The last amendments are made effective from 5 th May 2006
